Prioritising health in global disaster risk reduction frameworks

The UN 2015 landmark agreements and the WHO health emergency and disaster risk management framework – how do these support local and national policy and practice?

Tuesday 25 February, 5:15pm

University of Otago, Wellington | 23A Mein Street | Newtown | Wellington

Professor Virginia Murray

Public Health England

Virginia Murray is Head of Global Disaster Risk Reduction at Public Health England and Visiting Professor in Health Protection at Imperial College and King's College, London. She has provided health, science and technology support for the development and implementation of the Sendai Framework for Disaster Risk Reduction 2015-2030. Virginia takes forward work using evidence-based information and advice, on many hazards including flooding, heat, cold and climate change adaptation. She works closely with the World Health Organisation, particularly on the WHO Health Emergency Disaster Risk Management Framework which was launched in 2019.
