

WHERE CAN PHYSICS TAKE YOU?

University of Otago graduates have become...

RESEARCH
AEROSPACE
EDUCATION
TECHNOLOGY
ENTREPRENEURSHIP
FINANCE
ENGINEERING
DATA SCIENCE
ENERGY

PETRA FERSTERER
Data analyst for Oranga Tamariki in Wellington

"Both the technical skills and the abstract skills have been essential in my data career."

JACK WILLIAMSON
Test engineer with Segula in Sweden working with Volvo

"A physics degree shows an employer that you are able to think rationally and work out problems in a calculated manner."

MALIA VEHIKITE
Energy and Sustainability Advisor with KiwiRail

"I gained the knowledge and tools to help organisations understand their energy consumption and carbon emissions."

EMMA DOUMA
Senior Instructional Designer for Education Perfect in Dunedin

"My employers have been very impressed with my ability to communicate the complex ideas taught in physics and my logical thought processes."

JAMES DOUGLAS
Entrepreneur living in Barcelona having established several companies

"The problem solving skills and analytic thinking developed during my degree helped me bring new insights to a number of research projects."

KATIE CHONG
Developing LIDAR for autonomous vehicles with Baraja in Sweden

"The lab courses and problem-solving based teaching style ... have been pivotal in setting me up to become very successful in most of the things I have done since I graduated."

"A PHYSICS DEGREE GIVES YOU THE WIDE RANGE OF TECHNICAL AND PROBLEM SOLVING SKILLS THAT WILL LET YOU THRIVE IN OUR HIGH-TECH WORLD."
