A separate and more detailed account of the Internal Assessment in FREN233 will be distributed to enrolled students in the first class of the semester and available through Blackboard. Marking schedules for essays and oral tests are posted on Blackboard. Extensions and special arrangements for testing are only permitted in exceptional circumstances, such as those which qualify students for special consideration in final exams. Dishonest Practice and Plagiarism

Students should ensure that all submitted work is their own. Plagiarism is a form of dishonest practice (cheating). It is defined as copying or paraphrasing another's work and presenting it as one's own. Any student found responsible for dishonest practice in any piece of work submitted for assessment shall be subject to the University's dishonest practice regulations, which may result in serious penalties, including forfeiture of marks for the piece of work submitted, a zero grade for the paper, or in extreme cases, exclusion from the University.

As language students, we encourage you to practise your language skills with native speakers but using their help for assignments is considered dishonest practice. Likewise, we are aware of the plethora of online grammar checking and translating tools available and urge students not to rely on these little helpers, not only as their use may, in some cases, constitute plagiarism, but principally as this form of assistance is not available in the written tests and the final exam and it would thus be unwise to become reliant upon it.
