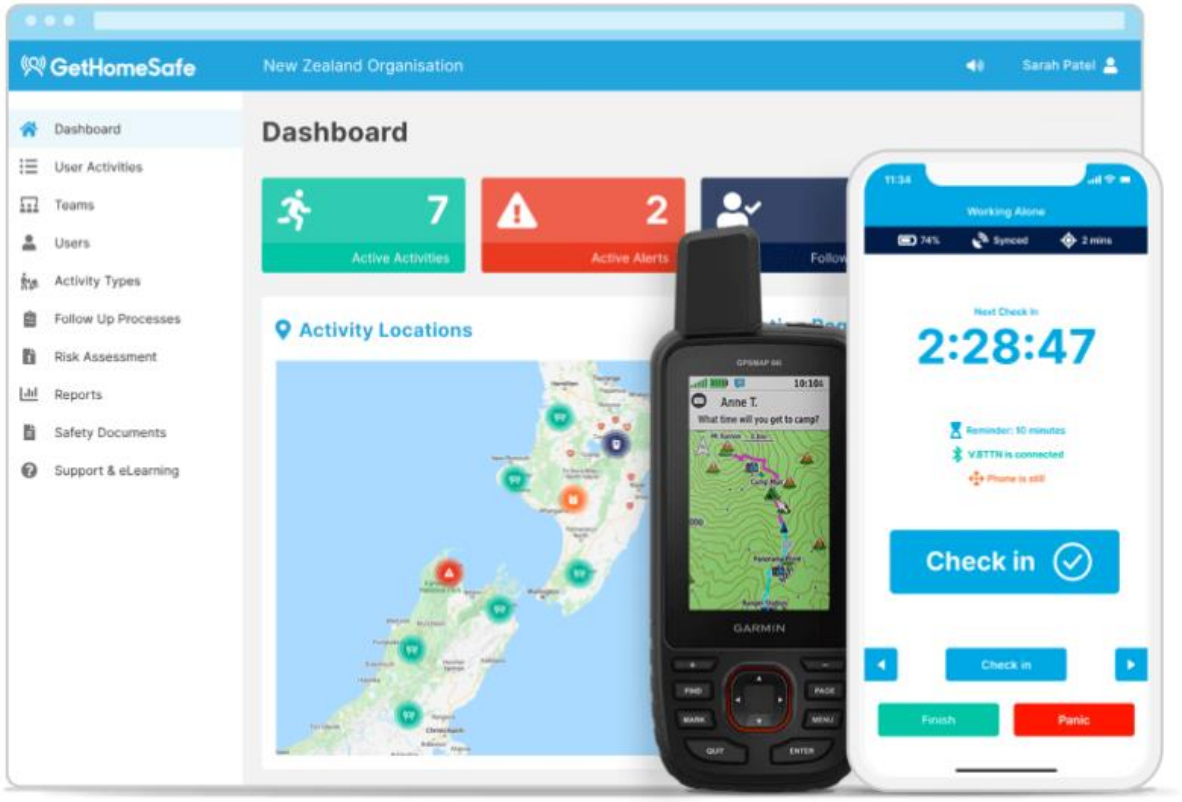
Te Kura Kairūri School of Surveying

Lunchtime Seminar Series



The Story of GetHomeSafe

Boyd Peacock, Founder and CEO

How GetHomeSafe Came to Be: From studying Surveying at Otago to working in the wilds of Canada, Australia, and New Zealand, I ended up commissioning an app and starting a company. After some years of hard work, that company has now achieved international success.

GetHomeSafe is a powerful, easy to use safety system that allows you to quickly tailor an end-to-end welfare monitoring solution for your workers at any location. The GetHomeSafe platform unifies automated welfare check-ins, planning, approval and combining multiple feeds of live GPS tracking information and alert activations into one central dashboard.

Thursday 29th August 2024 (12pm – 1pm)

L1 Lecture Theatre | School of Surveying, 310 Castle Street
