How to connect to the eduroam Wi-Fi service at another location using Android

These instructions will help University of Otago staff and students connect to the eduroam wireless (Wi-Fi) service at participating locations. The default eduroam WLAN settings for your Android device are:

Eduroam Wi-Fi Security Configuration	
SSID	eduroam
Security	WPA2-Enterprise (802.1X/EAP)
Authentication Method	PEAP-MSCHAPv2
Encryption Type	AES-CCMP
Login User Account	**Staff:** username@registry.otago.ac.nz (username format is e.g. doejo91p not first and last name e.g. john.doe) **Students:** username@student.otago.ac.nz
Validate Server Certificate	AddTrust External CA Root **OR** AusCERTServerCA.crt

The Trusted Root CA certificate can be downloaded here if required:

https://www.quovadisglobal.com/download-roots-crl/

Select: QuoVadis Root CA2
SHA1 - RSA – 4096
Download as DER

This section provides step-by-step instructions to configure your eduroam WLAN settings.

1. Once you are at the eduroam-participating campus, select **Settings** > **Wireless and network** > **Wi-Fi settings** and find the **eduroam** wireless network.

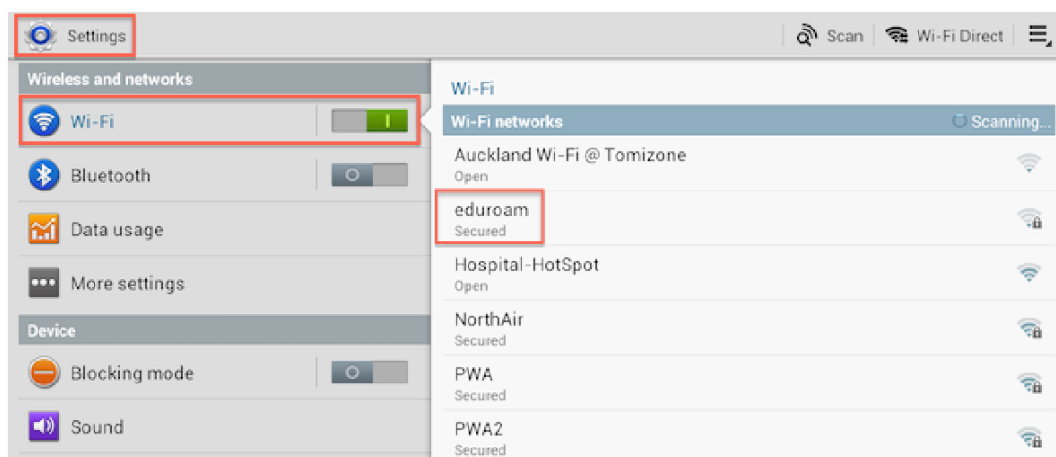

2. Select **eduroam**. Enter the following settings using the drop-down boxes in the eduroam window:

- **EAP method**: PEAP
- **Phase 2 authentication**: MSCHAPV2
- **Identity**: your University of Otago username
  (**Staff**: username@registry.otago.ac.nz
  Students: username@student.otago.ac.nz)
- **Password**: your associated University password

Click **Connect**.
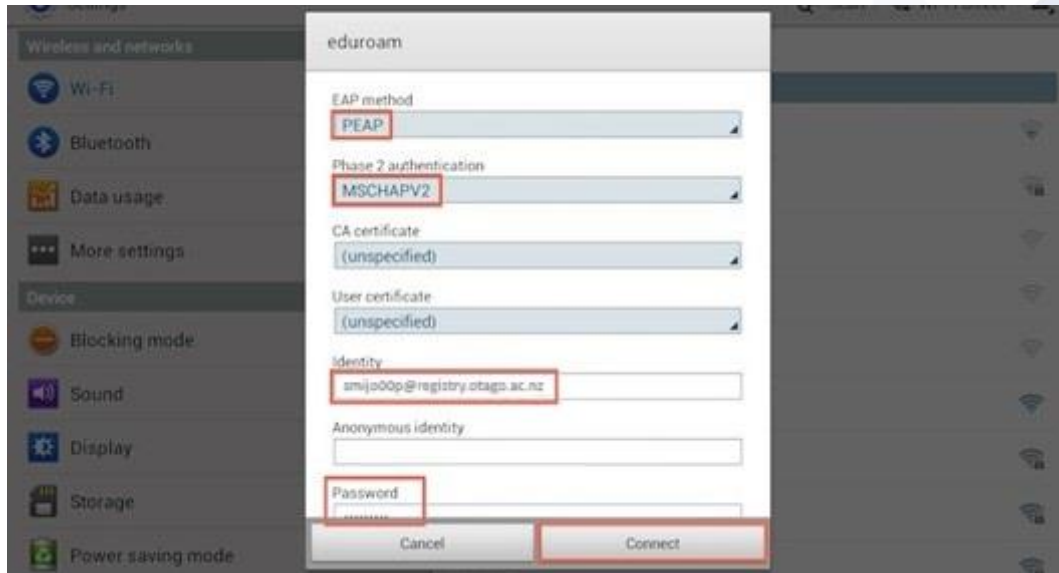

3. You are now connected to the eduroam network. Click on **eduroam** to verify your status.
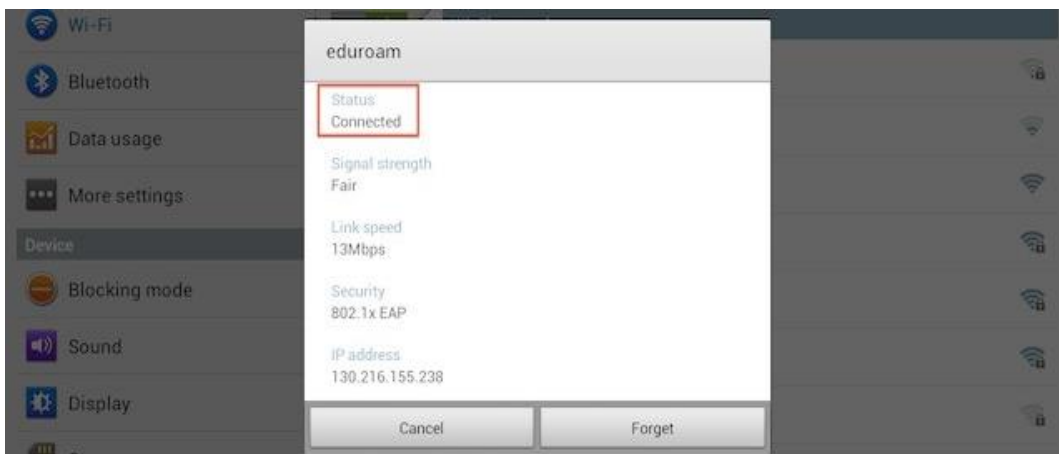

Open your web browser and go to https://www.otago.ac.nz to confirm that you are connected to the eduroam network. If this step fails, please reconnect to the eduroam wireless network by disabling then reenabling your Wi-Fi. You will be asked for your University of Otago login credentials again.

Please contact AskOtago if you need any help with setting up Android for eduroam:
